

NEW HOPE PREGNANCY CARE

HOLD ON TO HOPE

JULY 2013

A SIMPLE PLAN FOR A CULTURE OF LIFE

Though the trial of Kermit Gosnell in Philadelphia forced us to look again at the horrors of the abortion industry, since that time the pro-life community is seeing some encouraging news. Following Gosnell's conviction for taking the lives of babies delivered alive after abortion and for taking the life of a female client, many states began looking more closely at the abortion industry.

As a result, some abortion centers have closed their doors. That's good news. It is also good news when state legislatures, like those in Wisconsin, Texas, North Carolina, and other places, move to limit and better regulate abortion.

Now it is time to take the next step: ending abortion as we know it. Unfathomable? A mere pipe dream? Possibly. Or, this idea may be far more realistic than we can imagine.

Think about the following: what if, in our community, every woman or couple facing an unplanned pregnancy thought of *New Hope Pregnancy Care* before going anywhere else? And what if they came in our door to consider their options before heading to an abortion center?

Did you know that a reported 10% of pregnancies in Yadkin County end in abortion? Of those pregnancies of women age 19 and younger 20% end in abortion. In 2011, our latest statistic, 47 abortions were reported for Yadkin

County. Focus on the Family reports that if an abortion minded woman sees her baby on an ultrasound screen more than 80% of the time she will choose life. So theoretically, if we were the first choice for all, the abortion rate in our area would drop from 47 abortions to 10. Wow.

Let's extrapolate this across our nation. If every center like ours had similar results to ours, and all of the 2500 centers in America became this "first choice," what would happen? The abortion rate would drop precipitously, would it not? And without customers, abortion centers (perhaps almost all) would naturally close.

This is not impossible at all. This goal is simply dependent on our becoming that first choice. We need adequate funding for marketing (to reach those who need us), for our facilities and for our staffing and the many services we offer. With the best in marketing, facilities and services, we will be that first choice. Will this mean the end of abortion? I don't know for certain, but it would be exciting to find out.

We are looking for those who believe in making dreams possible to join as we expand our services to include testing for sexually transmitted diseases and prenatal care. This will help us to further market New Hope to reach more lives and ultimately save and change lives both physically and spiritually. The time is now. All we need is you.

POINTS OF INTEREST

- We have served 132 clients year to date.
- 44 ladies have come to us for pregnancy tests this year.
- The Gospel has been presented 79 times in 2013.
- We have performed 28 ultrasound scans since we opened our medical clinic.

*New Hope Pregnancy Care
Mission Statement*

New Hope Pregnancy Care is an organization of Christian people dedicated to sharing the gospel of Jesus Christ to women experiencing stressful pregnancies, especially those considering abortion. It is our desire to help meet the physical, spiritual, and emotional needs through one-on-one relationships with trained counselors as well as classes offered through New Hope Pregnancy Care. It is our desire to serve as a leader in the community by providing facts and information concerning abortion, alternatives to abortion, fetal development, the sanctity of human life, abstinence and other related services.

Thank you for your support
of our ministry!
