

In case you did not know

is doing great things!

This is just a little update to let you know all that is going on and to introduce the SAVE THE STORKS bus and our new women's medical clinic.

Introducing...

Compassion Care Center is a women's medical clinic featuring free pregnancy test, ultrasounds, STD testing and treatment.

Compassion Care Center serves Yadkin County and surrounding areas. We are partnering with other pregnancy centers to serve their clients with free medical care through Compassion Care Center.

You may be asking what the C3 in the logo is. On the surface it stands for **Compassion Care Center**, but it actually stands for **Committed, Caring, and Connected.**

The Compassion Care Center branding is the branding that we will be using for all of our medical services including our new Save the Storks bus!

I bet you are wondering what the purpose of a Save the Storks bus is. The Save the Storks bus is a mobile medical clinic. The bus will be used to provide medical care to women at risk for an abortion. Instead of coming to us we will go to them.

Here are some quick facts to show you why having this bus is so important!

3 out of 5 women who step on a Save the Storks bus choose

Life.

80% of women who are seeking an abortion will choose

Life

after seeing her baby.

84% of women who choose abortion think it is their only choice.

In 2012 their were
25 abortions in Yadkin,
29 abortions in Davie,
615 abortions in Forsyth.

After we see the women at our Save the Storks bus they will be referred back to their local pregnancy center for continuation of care and support. We are not a replacement for the local pregnancy center, but a tool to reach more women before they make a choice for abortion.

Here are some opportunities for you to partner with the Save the Storks bus.

Sponsor the purchase of the ultrasound

\$18,900

Sponsor the outer wrap

\$7,500

Sponsor the license tags

\$3,400

Sponsor for a month

\$4,000

for a day

\$250

Will you partner with us to impact the abortion rates?
